

# LOOKING FOR A PUSH TO REACH YOUR NEXT STEP?

## Coach Yourself and Thrive!

Being an entrepreneur is trendy and sexy these days, but owning a business that gives you a (stressful) job and having a business that makes money and works for you are two different things.

The question is, what does your business look like?

Could your business organization use a little boost? Would a 360° SWOT assessment help you identify internal threats, weaknesses and opportunities? Could a calibrated workshop help your team build a vision, a message, a new offer or a workflow? And, of course, could you and your teams use a business & performance coach as a sounding board to reach their next step? If you answered 'yes' to any of these questions, we definitely need to talk.

# YOUR BUSINESS DESERVES A BOOST

## **Business Coaching, Leadership & Team Coaching**

Nose to the grindstone, head under the water... we know how many entrepreneurs (and their teams) describe what their daily routine looks like. For this reason, the Impactified business coaches are the best opportunity ever to start working ON the business (not just into it), and to take some perspective and distance.

Weekly or bi-monthly, we act as a private sounding board and give you and your team a unique occasion to be challenged and brainstorm on the current and future issues that stay between you and your next step. What are you waiting for?

## **Internal SWOT Audit**

Have you ever wondered what untapped opportunities you could be leveraging right now, if only you knew where to look? Our 360° SWOT assessment takes place over three half-days and shows you:

- The internal threats you need to tackle
- The internal opportunities you are missing on
- The blind spots you need to look into
- The strengths you should leverage
- How to turn insights into an action plan!

# YOUR TEAMS DESERVE MENTORING

Building a vision everyone can relate to, re-inventing a brand DNA, crafting a message for the sales team, defining a Blue Ocean Strategy, setting strategic goals, or creating processes and workflows... the Impactified coaches facilitate team workshops that get your business ahead of the competition while building efficient teams. Beware, Aha! moments guaranteed!
